

# Surfs Up!

## The 11<sup>th</sup> Annual Guide to Industry Websites

Sometimes there's nothing more enjoyable than taking the boat out to a scenic location, dropping your fishing line and just hoping for a nibble while enjoying the freedom of being outdoors without constraints. But if you're doing some serious fishing, it doesn't hurt to have your sonar fish finder telling you exactly where the fish are located.

Same with the web. It can be fun and insightful to "dip your toes" in the waters of the world wide web, but if you're looking for something specific—say, the best glass industry websites around—you might find yourself sinking below the thousands of hits your search engine offers up. That's why we're offering our 11<sup>th</sup> Annual Guide to Industry Websites, a listing of some of the most-visited sites in the industry.

Missing one? Send an e-mail to [mheadley@glass.com](mailto:mheadley@glass.com) to add a site to next year's list.

(And don't forget—by visiting the digital edition of USGlass at [www.usglass-digital.com](http://www.usglass-digital.com), one click is all you need to take you straight to the homepages below!)
